**NOTICE OF UPCOMING DRAINAGE PROJECT IN YOUR AREA
KINGSTEAD ROAD**

April 25, 2017

Dear Resident:

This letter is to inform you of the scheduled removal of two deteriorated storm drain pipe culverts in the vicinity of Little Bennett Creek. The project is being managed by the Montgomery County Department of Transportation (MCDOT). During a routine inspection of Kingstead Road, MCDOT found that the existing metal pipes have deteriorated and are in need of replacement.

The failed metal pipes will be replaced with new concrete pipe culverts that will improve storm water drainage and help to prevent further erosion to the Little Bennett Creek area. As part of the project, new concrete head walls and end walls will be constructed onsite. Additionally, some stabilization work along the streambed is to be expected. These repairs will require the closure of a small section of Kingstead Road. Weather permitting, the project should take **two months** to complete. Road closure and detour signs are in place to direct and alert drivers and pedestrians of an alternative route. Please follow the posted detours. Residents should expect to see construction related activities to begin within the next two weeks. A map of that detour is attached on the reverse side of this letter.

MCDOT will make every effort to expedite the work to facilitate an accelerated completion with the least amount of inconvenience to nearby residents. Should you have any questions or comments feel free to contact Mr. Josh Faust, Public Outreach Manager at 240-777-7642.

We thank you in advance for your cooperation and apologize for any inconvenience this project may cause.

Sincerely,

A handwritten signature in blue ink, appearing to read "R. Paugh".

Randy Paugh
